

# Dreaded An Operation More Than Anything

Tried Fruitola and Traxo and Has Never Since Been Troubled With Gall-stones.

Mrs. Mary E. Franse, whose address is West Point, Nebr., Box 411, has written to the Pinus laboratories a very strong endorsement of Fruitola and Traxo. In her letter, Mrs. Franse says: "About ten years ago I was about to undergo an operation for gall-stones when I heard of your medicine. Dreading an operation above everything I determined to try Fruitola and Traxo and have never been sorry I did so, as I have never been troubled with gall-stones since."

MRS. MARY E. FRANSE

Fruitola is a powerful lubricant for the intestinal organs, and one dose is usually sufficient to give ample evidence of its efficacy. It softens the congested masses, disintegrates the hardened particles that occasion so much suffering, and expels the accumulated waste to the intense relief of the patient. Following a dose of Fruitola, Traxo should be taken three or four times a day in order to rebuild and restore the system that has been weakened and run down by suffering. It is a splendid tonic, acting on the liver and stomach most beneficially.

In the files of the Pinus laboratories at Monticello, Ill., are many letters gratefully acknowledging the satisfactory results following the use of Fruitola and Traxo. Arrangements have been made for the distribution of these excellent remedies by leading drug stores everywhere. In Anderson Fruitola and Traxo can be obtained at Evans' Pharmacy, three stores.

Husbands. "All right behind there?" called the conductor from the front car. "Hold on," cried a shrill voice "wait till I get my clothes on!" The passengers craned their necks expectantly. A small boy was struggling to get a basket of laundry aboard.—Puck.

"Messenger boys have no dress uniform, have they?" "No; there is strictly a fatigue uniform."—Baltimore Amalgam.

## AUTOMOBILE REPAIR SHOP WILL BE MOVED

R. C. CAMPBELL WILL LOCATE IN BARTON BUILDING SOON

## GOOD LOCATION

Being on Earle Street and Easily Accessible in All Kinds of Weather.

Mr. R. C. Campbell announced yesterday that he would move his garage business from the Sadler building on East Orr street to the Barton building on West Church street sometime during the latter part of next week. Mr. Campbell has been in his present location ever since January, 1914, and during that time has built up a large trade. The new location chosen by Mr. Campbell is very suitably adapted to an automobile repair shop and garage. Being located on Church street, one of the paved streets in the center of the business district, all kinds of weather, and is also near the center of the business district.

Mr. Campbell announces that in his new place he hopes to retain all of his former customers and that he will have everything needed to keep an automobile running, both in gasoline and repairs. He will have a full force of able workmen as heretofore. His new place of business will be open both day and night and there will always be someone ready to wait on those who wish anything done. Mr. Campbell announced that the name of the place would be the "Speedway" garage.

It is understood that Mr. Dobbins, who was formerly on Orr street before Mr. Campbell went there, will again occupy this place as a repair shop.

## PENDLETON

The meeting of the school improvement association was held Friday afternoon last. There was not a large attendance, but those who came are really interested in the association, and promised to help in the good work. The first social evening will be Friday, October first, at eight o'clock. Mr. Hanna and the high school girls and boys will be the hosts and hostesses for the occasion. A jolly good time is promised to all. It was decided to order the new curtain at once. Mrs. Hanna, who is the chairman of the entertainment committee, is arranging a most unique and amusing party for Halloween. As our chairman is not only a great worker, but very skillful and successful in such affairs, its success is assured.

The young people had a delightful time at Mrs. McPhail's Friday evening. It is a home much noted for its hospitality and the genuine welcome that is extended to all guests, so it goes without saying that it was an evening of enjoyment, and that every one regretted when the time came to say goodbye.

Mrs. Jack Bunker, who has been visiting her aunt, Miss Eliza Pickens for some months, leaves Sunday for New York, where she will join her husband. After a few weeks visit to his relatives they go to Panama, where Mr. Bunker is stationed. It is with genuine regret that we will say goodbye to this charming little lady, who is not only delightfully witty, but unusually attractive. She will be greatly missed.

Miss Lily McPhail entertained the Fortnightly club Wednesday afternoon. She was a very cordial and engaging young hostess, ably assisted by her general mother, and her sister, Eugene Sifton, and Mrs. Hillingham. After a very pleasant afternoon, the most appetizing refreshments were served.

Something About Smoke. (The Philadelphia Public Ledger.) We were talking about smoke. "How much coal is wasted in a locomotive?" asked H. A. Lewis, who used to live in Philadelphia, but is now a Chicagoan. "About 95 per cent," replied William Copeland Furber. "A trifle more than that," was Mr. Lewis' guess, "but in five years they will all be burning powdered coal. That will enable them to get 95 per cent of the energy out of their fuel and send but 5 per cent out the smokestack."

## LESS MEAT IF BACK AND KIDNEYS HURT

Take a glass of Salts to flush Kidneys if Bladder bothers you.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

## HAD CUTTING SCRAPER EARLY LAST NIGHT

Negro Woman and Husband Fought With Knives and Both Were Slashed.

Mary Smith, a negress, and her husband, Phillip Smith, became involved in a row last night at their home in the Neal's Creek section with the result that the former was so badly cut that it was necessary to take 13 stitches to sew up the wounds. Smith was also cut by his wife and the physician had to use the needle on him to the extent of two stitches.

It seems that the woman began questioning her husband about some clothes which he pawned and this led on to the row. Both live on Mr. Jim Elgin's farm in the Neal's Creek section of the county and are said to be good hard working negroes.

## HIGGEST SHADE TREE

Indiana Sycamore—Tallest Tree North Carolina Poplar.

(Washington Dispatch) Announcement is made that the prize offered by the American Genet! association for the location of the largest shade tree in the United States had been awarded to a sycamore at Worthington, Ind., which is 42 feet 3 inches in circumference, and 150 feet high.

The contest brought photos and descriptions of 337 trees from various localities in the United States. A chestnut was found near Crestmont, N. C., which measured 33 feet 4 inches in circumference and was 75 feet tall. The largest elm in the country undoubtedly is the "Great Elm," at Wetherfield, Conn., 28 feet in circumference and about 100 feet tall. A sassafras was found at Horsesham, Pa., 15 feet 10 inches in circumference at 4 feet from the ground. Massachusetts developed a white birch the girth of which was 12 feet 2 inches. Louisiana produced a pecan with a circumference of 19 feet 6 inches, and a catalpa was found in Arkansas that measured 16 feet in circumference.

The tallest tree found was a yellow poplar in North Carolina, 198 feet high, with a circumference of 34 feet 6 inches.

## DEER WITH GLASS EYE

Hunter Kills Buck With Earmarks of Civilization.

(Salinas, Cal., Dispatch.) Abalaro Cooper of Salinas, while hunting in the fastness of the San Lucia range, killed a four point buck that had a glorious green glass eye in one of its sockets.

Besides the ears had been swallow-tailed, a common practice in marking the ears of cattle, and its tail had been cut off in some manner so that only a stub an inch long stuck out. It is thought possibly the deer was a pet of one of the ranches down in the Salinas Valley, and when the "running" season started the deer answered the call of its mates and started for the wilds.

Something About Smoke. (The Philadelphia Public Ledger.) We were talking about smoke. "How much coal is wasted in a locomotive?" asked H. A. Lewis, who used to live in Philadelphia, but is now a Chicagoan. "About 95 per cent," replied William Copeland Furber. "A trifle more than that," was Mr. Lewis' guess, "but in five years they will all be burning powdered coal. That will enable them to get 95 per cent of the energy out of their fuel and send but 5 per cent out the smokestack."

The Mr. Lewis told me that one of the big Middle western roads is using powdered coal with great success. "Besides getting many times as much heat out of every ton of fuel," said Mr. Lewis, "this process solves the ugly smoke nuisance."

They say in Pittsburgh that smoke causes annually \$9,000,000 in damages to buildings and the contents of stores and houses. I presume that in Philadelphia our smok bill must reach a million or two.

Scientists have proved that more people die of pneumonia in smoky towns than in clean ones. The deaths from this disease are most numerous in those sections of smoky cities like Pittsburg where there is the most smoke.

On that theory the pneumonia belt of Philadelphia is on the west side of the Schuylkill, where the great nests of locomotives blacken the air. Wasting fuel via the flue is an American habit, and while we produce more coal than any other country, we also throw more away.

The Food Argument. Vicar's Daughter—I'm sorry 'er hear you were at the Methodist tea meeting, Miss Jones. I cannot think what arguments have caused you to change your creed.

Miss Jones—Well, miss, first it was their sultany cake, but it was their ham sangeidges as converted me.—Tit-Bits.

His Rest Was Broken. O. D. Wright, Rosemont, Neb., writes: "For about six months I was bothered with shooting and continual pains in the region of my kidneys. My rest was broken nearly every night by frequent action of my kidneys. I was advised by my doctor to try Foley Kidney Pills and one 50 cent bottle made a well man of me. I can always recommend Foley Kidney Pills for I know they are good." This splendid remedy for backache, rheumatism, sore muscles and swollen joints compels no habit forming drugs. (S.C.) everywhere.

## PHILADELPHIA WINS HER FIRST PENNANT IN NATIONAL LEAGUE

New York, October 1.—For the first time in the history of the world's series the National league will be represented by a Philadelphia club in the struggle for the premier honors of the professional diamond.

Not since the organization of the senior major league back in 1876 has a Quaker city team in this association won a pennant until the present season.

During the forty years of the National league's existence Philadelphia has fought for the flag no less than thirty-four times and it remained for Manager Pat Moran to lead the Phillies of 1915 out of the wilderness of baseball despair and into the light of a world's series. The home of William Penn was represented by a club in the opening year of the organization but the following season dropped out and did not re-appear as a pennant contender until 1887.

From that time until the present Philadelphia has annually figured in the league race but with rather indifferent success. The position of runner-up to the winner was achieved in 1887, 1901 and 1913 while the depth was reached in 1897 when the Phillies finished in tenth place out of a field of twelve clubs. The average of the Philadelphia teams for the thirty-four years in 19-34 which would rank them as leaders of the second division.

Other cities have tried from time to time to capture a senior league flag without success for twenty-two years since the formation of the league in 1876. None has been more persistent than Philadelphia, however, and the fans of Quakerburg are entitled to wide latitude for celebrating. Of the twenty-two National pennant hunting cities but eight have ever accomplished the feat of capturing a flag. Chicago leads with ten; Boston is second with nine; New York third with seven; Pittsburgh fourth with four while Baltimore and Brooklyn are tied with three each; Providence is credited with two and Detroit one. Other cities that have tried and failed include: Cincinnati, St. Louis, Buffalo, Cleveland, Hartford, Indianapolis, Kansas City, Louisville, Milwaukee, Syracuse, Troy, Washington and Worcester.

Pennants and world's series are not new to Philadelphia, however, for Connie Mack has won six American league flags and three world's championships with his Athletics but it was not until Moran took charge of the National league club that the senior association pennant chasers forged to the front and broke a record of thirty-four years standing by bringing to the Quaker city a National league banner to hang along side of the numerous huntings that Mack and his Athletics have garnered from the American league and the world's series.

Cat Saves a Family. Stamford, Conn., Oct. 1.—Her pet cat jumped on Mrs. Thomas Roberts' bed at 3 o'clock this morning and clawed her face. Mrs. Roberts awoke and found the room dense with smoke. She aroused her husband and they carried their two babies out of the house. In a few minutes the dwelling was entirely aflame. Everything in it was destroyed.

None Equal to Chamberlain's. "I have tried most all of the cough cures and find that there is none that equal Chamberlain's Cough Remedy. It has never failed to give me prompt relief," writes W. V. Harner, Montpelier, Ind. When you have a cold give this remedy a trial and see for yourself what a splendid medicine it is. For sale by all dealers.

AT THE BIJOU EVERY THURSDAY

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell. I tried most every kind of medicine, but none did me any good. I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together."

My friends began asking me why I looked so well, and I told them about Cardui. Several are now using it."

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sidesache, sleeplessness, and that everlasting tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century. Begin taking Cardui to-day. You won't regret it. All druggists.

Style is the expression of personality by attire and clothes that we tailor to your order reflect refined individuality at a moderate price

## Oil Heaters

These Heaters have many improvements this season. They require the least oil and give the most heat. No smoke. No odor. A simple twist of the wrist locks the wick.

There is nothing more comfortable and convenient for these cool mornings. Can be moved from room to room, giving you heat just where you want it.

Sullivan Hardware Company

## When you are selling your cotton

it is a good plan to deposit your money in the Farmers and Merchants Bank, or the Farmers Loan and Trust Company. It does not matter who buys your cotton or what bank they give you a check on, bring your check to us for deposit,—if it stays with us three months we will pay you interest on it. And then you will have a claim on us when you want to borrow money.

If you favor us, we will favor you.

J. I. BROWNLEE, Cashier.
